REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: Reference(s) Allizon et al. (EP 1328114) in view of Boice et al. (6,097,757) are made of record as teaching receiving input data with a defined input resolution and a means for selecting an output resolution to be applied to an output representation. However, none of the cited prior art teaches or suggests that when the presentation style of the frame is changed in response to scaling and combining control information before and after the changes, the image enhancing unit does not carry out the image enhancing process, as claimed

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
